**GREGORASH AVIATION COMPANIES RECOGNIZED AS
AUTHORIZED DISTRIBUTORS FOR TEMPEST PRODUCTS**

**Airparts Network and Aero Recip Alaska to serve as service centres for
Tempest Product Line including recently launched Tempest Carburetor**

Winnipeg, Canada - Gregorash Aviation is pleased to announce that two of its companies, Airparts Network Ltd. and Aero Recip Alaska LLC have been authorized as official distributors for Tempest products. “We’ve been distributing Tempest products for years and we’ve always been happy with the quality and reliability,” says Gregorash Aviation Vice-President Tracey Gregorash. “Being recognized as an authorized distributor means we can pass on savings to our customers. Our pricing will be competitive on all Tempest products and we’ll have more products on hand.”

At both Airparts Network and Aero Recip Alaska regularly stocked items include “The Original” Tempest oil filter, fuel pumps, dry air pumps, mag parts, deice valves, pneumatic filters, manifold valves, regulators filters, governor gaskets, fittings, auxiliary standby pumps, and the recently launched Tempest carburetor.

The Tempest Carburetor will be serviced through Aero Recip Canada in its Winnipeg, Canada facility, while the Alaska market will be serviced by Aero Recip Alaska’s Anchorage facility. According to Mike Santangelo, Aero Recip Alaska General Manager, the Tempest carburetor was the original driver of the arrangement. “Tempest needed a capable service centre for their new carburetor. Our product support capabilities make us a natural fit. We help Tempest help its customers with the Tempest carburetor and with *all* Tempest products. Our locations give Tempest a strategic advantage because we can serve customers in both Canada and the US.”

About Gregorash Aviation:

Gregorash Aviation is piston engines, parts and supplies. Its products and services make Gregorash a “one-stop” shop for commercial, private and experimental piston engine operators. Gregorash is three companies and six brands including Aero Recip Canada Ltd, Airparts Network Ltd, Ultimate Oil Coolers, Cantherm Distributors, Dyno Power Xperimental, and Aero Recip Alaska LLC.
